TRP INTERNATIONAL, LLC

EMCO
INDUSTRIES

In 2010 TRP introduced the North American light and medium duty trailer market to the **TruRyde** brand. While the brand was new the company and products certainly were not. Over the years TRP had established a reputation for providing an expansive line of quality axle and suspension components distributed on schedule at competitive prices with responsive and professional service. Our capabilities in the areas of engineering and manufacturing along with a thorough understanding of the price and quality requirements of the trailer industry combined with an expertise in identifying reputable supplier partners around the globe is the substance behind that reputation. As an integrated supplier our primary business is to support axle manufacturers and parts distributors with the components they want, when they need them. Up until 2010 outside of those customers few new who TRP was, this in spite of the fact that nearly every trailer and towable RV rolling down the road has one or more of our components on it. We believed the time had come to establish a brand in the market that was built on a foundation of trust and confidence. **TruRyde** became that brand!

We recognize that a brand is only as good as the company and more importantly the people behind it so for the last 10 years we have quietly promoted **TruRyde** through our actions and not our words. We are thrilled that many of our customers without our prompting or financial support are using the **TruRyde** name in their marketing & sales strategies. To us that says more about who we are and what **TruRyde** represents than any amount of self-promotion. While we are pleased with the recognition the brand has achieved we are as committed as ever to improving as a company to ensure that **TruRyde** remains a brand you can **Ryde** with confidence.
